Professional Summary

Senior Full Stack Developer with 5+ years of experience in building scalable web applications using React, Node.js, and cloud technologies. Proven expertise in developing microservices, implementing CI/CD pipelines, and working with distributed systems. Strong background in JavaScript, TypeScript, Azure, Docker, Kubernetes, MongoDB, and SQL. Collaborated with cross-functional teams to deliver innovative solutions impacting millions of users. Experience with AI/ML integration and DevOps practices.

Education

National Institute of Technology Warangal (NITW)

Master of Computer Applications

- Class Topper MCA 2019–2020

Graduated: 2022
Telangana, India

University of Delhi (DU)

B.Sc (H) Computer Science

Graduated: 2019
Delhi, India

Experience

Wayfair

Software Engineer II

Apr 2023 - Present
Bangalore, Karnataka

- Designed a Lane Management System optimizing lane selection based on 50-70 parameters, reducing fulfillment costs by 20%.
- Built Voyager, an AI-powered assistant translating English to **SQL** queries for business collaboration.
- Engineered LMP Insight tool processing 50K events/min for metrics tracking and triage reduction.
- Redesigned label printing platform for 100 labels/sec and added automated testing pipelines.
- Created unified label printing endpoint cutting onboarding time to 3 weeks and improved PII data handling.
- Developed **microservices** for analytics management and implemented **CI/CD** pipelines for seamless deployment.

Amazon

SDE I

Jul 2022 - Mar 2023
Bangalore, Karnataka

- Built a pipeline migrating 1M customers across marketplaces, automating and improving backend integration.
- Migrated backend services reducing IMR costs by 50% with improved performance and reliability.
- Collaborated with cross-functional teams to ensure system stability and scalability.

Mobeology Communications

Software Engineer

Jan 2021 - Jun 2022
Faridabad, Haryana

- Designed a profiling dashboard for publishers and campaigns.
- Developed **microservices** for analytics management.
- Implemented **Docker** and **Kubernetes** for container orchestration.

Projects

Grievance Portal

Python, Django, AWS EC2, Docker, NLP

A web app for students to submit complaints related to academics, mess, and hostel issues.

NITADDA

Python, Django, AWS EC2, Docker

A platform for NIT students to share and access study resources.

Technical Skills

Languages:	JavaScript, TypeScript, SQL
Developer Tools:	VS Code, IntelliJ, Git, Jenkins
Technologies/Frameworks:	React, Node.js, Azure, Docker, Kubernetes, Microservice Architecture, System Design, AI/ML, DevOps
Databases:	MongoDB, SQL, NoSQL
Others:	Automation, Building Tools

Achievements / Responsibilities

- Class Topper MCA 2019-2020
- School Topper Sr. Secondary (CBSE) 2015-2016
- Lead Web Developer at College Software Development Cell (WSDC) 2020–2022
